

# Insight

A Visual South, Inc. News Publication

Volume 2, Issue 2

Spring 2008

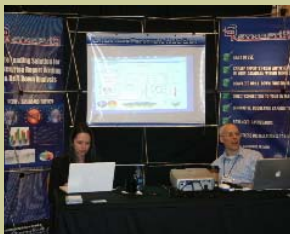

A birds-eye view of the Embassy Suites lobby.

The complimentary one-on-one consulting sessions were a big hit with attendees.

Infor staff provided informative breakout sessions and also ran demos of 6.5.3.

Show sponsors were on-hand in the Solutions Center.

## Class Schedule

A complete list of VISUAL classes can be found on our web-site ([www.visualsouth.com](http://www.visualsouth.com)). All classes are held at our Charlotte/Concord, NC training facility. Sign up for classes online by clicking [here](#) or call our office at 704.721.6020.

## Visualize Success—A Big Success

Thank you to all who attended Visualize Success 2008. It was your interest and suggestions that prompted us to host our first user conference in over eight years and made the conference a tremendous success. The feedback we've received since the conference has been so overwhelmingly positive, we are excited to announce we will be hosting another user conference in the spring of '09. Details will be provided in the months to come. For those of you who were unable to attend Visualize Success 2008, a brief recap of the conference follows:

The conference kicked off Wednesday evening with an opening night cocktail party and dinner where attendees were able to network in a comfortable, elegant setting which included a sumptuous spread of food, beverages, and entertainment. Entertainer & magician "Hannibal" amazed attendees with his delightful (and baffling!) slight of hand. A great time was had by all.

Thursday morning, Jack Shannon helped attendees and staff get their day off to a good start with an informative and surprising opening address. Attendees were pleasantly surprised by the lighthearted wit, and Visual South staff members were amazed by Jack's proficiency with Photoshop. (See sidebar photo).

Attendees were able to set their own agenda by choosing from 18 targeted breakout sessions over the course of the two days, or by opting to spend time in the Solutions Center. The Solutions Center proved to be one of the most popular conference features where complimentary, 30 minute one-on-one consulting sessions were available. Infor representatives were on-hand running demos of VISUAL 6.5.3 and answering questions. Conference sponsors: BarCode ID Systems, InSiteShip and Compusoft rounded out the event with comprehensive information and demonstrations about their add-on solutions for VISUAL. Visualize Success was the place to be for in-depth VISUAL knowledge, know-how and networking.

## Conference Quotations

Many attendees emailed us with their thoughts after the conference. Here are a few of our favorites:

"I can speak from experience that the Visual South program last week was better than attending (other VISUAL) conferences. I attended two of those (at great expense) only to come away with disappointment. I thought the conference was well put together and allowed great flexibility on the part of Visual South to allow the customers to decide what to do and when."  
*Bob Daugherty, Kegel*

"I really enjoyed the User Group conference. I get the most out of spending time with other people talking about VISUAL and how they do this or that."  
*John Bozard, Phoenix Specialty Manufacturing*

"I believe the pleasure was all in the users! I felt this experience was of a more personal level and I'm sure many users walked away with much to think about. Your staff was very impressive, and I definitely look forward to a long relationship as well as many more conferences in the future."  
*Derek P. Johnson, CORTEC*

Visualize Success provided tremendous networking opportunities.

Awww...isn't he... um...cute? Attendees & VS staff members were entertained (and surprised) by Jack's opening address.

Attendees enjoyed great food, entertainment and beautiful spring weather.

Attendees set their own agenda by selecting from numerous breakout sessions.
